

## **CAMPUS NEWS from the Principal**

December 2009

Good news regarding our school site lease! The Norwalk-La Mirada Unified School District is making it possible for us to remain on our current site for at least one more year (after this current school year)! Thank you to all who have been praying, writing letters and making phone calls to help us. The journey is not quite complete as we still need to secure the final details of our license to remain on our campus and to negotiate a longer-term arrangement, but the immediate future appears to be provided for. Please continue praying as our team continues to negotiate with the school district. Specifically, pray for God's will regarding our school site and for wisdom and encouragement for everyone who is working on the project.

-Mr. Esslinger
