

### Course Description

**Subject:** Beginning Golf

**Grade:** 7 & 8

**Overview:** This course is intended as an introduction to golf; however, players of all skill levels are welcomed. We examine the rules, history and traditions of golf as well as how to swing the clubs. We discuss situations and course management (strategy) and how to select clubs.

Golf involves pressure and being a good teammate. Pressure situations are opportunities for us to discover and build our characters.

**Primary Biblical Integration:** Take time to notice the differences in environments, really see creation, expect God everywhere.

**Student Materials:**

Students may bring their own clubs if they wish, but they are not required.

**Teacher Materials:**

Golf balls, clubs and practice mats are all provided (and a little pressure!)
