

### Course Description

**Subject:** Watercolors

**Grade:** 7 & 8

**Overview:** This elective class begins with a drawing component, then moves to the use of color with chalk pastels. We then proceed to the use of watercolor paints, both pans and tube paints with a discussion of the advantages and disadvantages of both.

**Primary Biblical Integration:** Art classes in general help us to more clearly see and respond to God's creation. Watercolors in particular, by their nature, teach us to be flexible in that a painting never turns out quite how one expected

**Student Materials:**

Pencils and erasers; students are provided with drawing and watercolor papers, chalk pastels, watercolor paints and brushes.

**Teacher Materials:**

God's creation and a bit of experience.
